

AI-Enabled Cybersecurity Risk Assessment & Compliance Platform

Assessment Report

Assessment ID	4
University	Jawaharlal Nehru University
Assessment Mode	QUESTIONNAIRE
Generated Time	17-07-2026 14:56

Executive Summary

10 security controls require implementation.

Compliance Score	37.00 %
Overall Risk Score	44.40
Risk Level	Medium
Overall Priority	CRITICAL

Immediate Actions

- Implement data minimization practices to reduce privacy risks
- Establish purpose limitation for personal data processing
- Establish data subject rights management processes

AI Recommendations

C007 - Data Minimization

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Insufficient data collection and processing policies

Recommendation: Implement data minimization practices to reduce privacy risks

Technical Steps

- Develop and enforce data collection policies
- Conduct regular data reviews to identify unnecessary collections
- Implement data retention and disposal procedures

Policy Steps

- Establish data governance framework
- Define roles and responsibilities for data management
- Develop training programs for staff on data handling

Business Impact: Reduced risk of data breaches and regulatory non-compliance

Success Metrics

- Percentage of personal data collected and processed
- Number of data breaches or incidents
- Compliance with regulatory requirements

C008 - Purpose Limitation

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Lack of clear purpose definition for personal data processing

Recommendation: Establish purpose limitation for personal data processing

Technical Steps

- Develop and document purpose statements for data processing
- Implement data processing restrictions
- Conduct regular reviews of purpose statements

Policy Steps

- Establish data processing policies
- Define roles and responsibilities for data processing
- Develop training programs for staff on data processing

Business Impact: Reduced risk of regulatory non-compliance and data misuse

Success Metrics

- Number of purpose statements documented
- Number of data processing restrictions implemented
- Compliance with regulatory requirements

C009 - Data Subject Rights Management

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Insufficient support for data subject rights

Recommendation: Establish data subject rights management processes

Technical Steps

- Develop and implement data subject rights workflows
- Establish communication channels for data subjects
- Conduct regular reviews of data subject rights requests

Policy Steps

- Establish data subject rights policies
- Define roles and responsibilities for data subject rights management
- Develop training programs for staff on data subject rights

Business Impact: Reduced risk of regulatory non-compliance and reputational damage

Success Metrics

- Number of data subject rights requests received
- Number of data subject rights requests fulfilled
- Compliance with regulatory requirements

C013 - Multi-Factor Authentication (MFA)

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Insufficient authentication mechanisms

Recommendation: Implement multi-factor authentication

Technical Steps

- Develop and implement MFA solutions
- Conduct regular reviews of MFA effectiveness
- Establish incident response plans for MFA-related incidents

Policy Steps

- Establish MFA policies
- Define roles and responsibilities for MFA management
- Develop training programs for staff on MFA

Business Impact: Reduced risk of unauthorized access and data breaches

Success Metrics

- Number of users with MFA enabled
- Number of MFA-related incidents
- Compliance with regulatory requirements

C015 - Privileged Access Management

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Insufficient privileged access controls

Recommendation: Implement privileged access management

Technical Steps

- Develop and implement privileged access solutions
- Conduct regular reviews of privileged access effectiveness
- Establish incident response plans for privileged access-related incidents

Policy Steps

- Establish privileged access policies
- Define roles and responsibilities for privileged access management
- Develop training programs for staff on privileged access

Business Impact: Reduced risk of unauthorized access and data breaches

Success Metrics

- Number of users with privileged access
- Number of privileged access-related incidents
- Compliance with regulatory requirements

C017 - Information Security Policy

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Insufficient information security policies

Recommendation: Establish information security policies

Technical Steps

- Develop and implement information security policies
- Conduct regular reviews of policy effectiveness
- Establish incident response plans for policy-related incidents

Policy Steps

- Establish information security governance framework

- Define roles and responsibilities for information security
- Develop training programs for staff on information security

Business Impact: Reduced risk of security incidents and data breaches

Success Metrics

- Number of information security policies implemented
- Number of policy-related incidents
- Compliance with regulatory requirements

C019 - Encryption at Rest

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Insufficient data encryption

Recommendation: Implement encryption at rest

Technical Steps

- Develop and implement encryption solutions
- Conduct regular reviews of encryption effectiveness
- Establish incident response plans for encryption-related incidents

Policy Steps

- Establish encryption policies
- Define roles and responsibilities for encryption management
- Develop training programs for staff on encryption

Business Impact: Reduced risk of data breaches and unauthorized access

Success Metrics

- Number of encrypted data stores
- Number of encryption-related incidents
- Compliance with regulatory requirements

C020 - Encryption in Transit

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Insufficient data encryption

Recommendation: Implement encryption in transit

Technical Steps

- Develop and implement encryption solutions
- Conduct regular reviews of encryption effectiveness
- Establish incident response plans for encryption-related incidents

Policy Steps

- Establish encryption policies
- Define roles and responsibilities for encryption management

- Develop training programs for staff on encryption

Business Impact: Reduced risk of data breaches and unauthorized access

Success Metrics

- Number of encrypted data transmissions
- Number of encryption-related incidents
- Compliance with regulatory requirements

C032 - Server Security

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Insufficient server security controls

Recommendation: Implement server security measures

Technical Steps

- Develop and implement server security solutions
- Conduct regular reviews of server security effectiveness
- Establish incident response plans for server security-related incidents

Policy Steps

- Establish server security policies
- Define roles and responsibilities for server security management
- Develop training programs for staff on server security

Business Impact: Reduced risk of server compromises and data breaches

Success Metrics

- Number of secured servers
- Number of server security-related incidents
- Compliance with regulatory requirements

C037 - Breach Notification

Priority	Timeline	Estimated Effort	Implementation Cost
CRITICAL	60-90 Days	High	High

Root Cause: Insufficient breach notification procedures

Recommendation: Establish breach notification processes

Technical Steps

- Develop and implement breach notification solutions
- Conduct regular reviews of breach notification effectiveness
- Establish incident response plans for breach notification-related incidents

Policy Steps

- Establish breach notification policies
- Define roles and responsibilities for breach notification management
- Develop training programs for staff on breach notification

Business Impact: Reduced risk of regulatory penalties and reputational damage

Success Metrics

- Number of breach notifications sent
- Number of breach notification-related incidents
- Compliance with regulatory requirements

Implementation Roadmap

Timeframe	Planned Activity
Immediate	- Implement data minimization practices to reduce privacy risks - Establish purpose limitation for personal data processing - Establish data subject rights management processes
30 Days	No activities scheduled.
60 Days	No activities scheduled.
90 Days	- C007 - Data Minimization - C008 - Purpose Limitation - C009 - Data Subject Rights Management - C013 - Multi-Factor Authentication (MFA) - C015 - Privileged Access Management - C017 - Information Security Policy - C019 - Encryption at Rest - C020 - Encryption in Transit - C032 - Server Security - C037 - Breach Notification
